Weekly Activities Update

Week 20

July 21 - 25, 2024

2023 - 2024 Semester 2

Sharing weekly highlights, operations, and accomplishment of the department

Occupational Health and Safety Inspection

Civil Inspection

Electrical Inspection

Welding Inspection

Trainee Support Sessions

Diploma 2 Trainees Prepares for Skills Exams

Diploma 2 trainees are rigorously preparing for their final skills exams, a crucial step in their journey to becoming proficient inspectors. These exams will comprehensively test their knowledge and practical skills across various aspects of the inspection process. Trainees will be evaluated on their ability to meticulously prepare for inspections, demonstrating their understanding of pre-inspection procedures, safety protocols, and necessary equipment checks. During the inspection phase, they must showcase their technical expertise, attention to detail, and adherence to industry standards. Finally, they will be assessed on their capability to prepare thorough and accurate inspection reports, highlighting their ability to document findings clearly and professionally. This rigorous evaluation ensures that the trainees are not only skilled in executing inspections but also competent in managing the entire inspection workflow, from preparation to reporting.

Support Session for Trainees at Risk July 22, 2024

Job skills teachers are conducting support sessions for trainees needing extra help with their skills and CBT exams next week. These sessions provide personalized guidance, reinforce key concepts, and offer practice opportunities under expert supervision, ensuring trainees are well-prepared and confident for their exams.

Industry Visits

Diploma 2 Trainees visited NESMA Welding Workshops July 25, 2024

Our Welding Diploma 2 trainees recently had the exceptional opportunity to visit the NESMA and Partners fabrication workshop, where they gained hands-on experience in various types of pipe welding and testing. This visit provided them with practical knowledge and insights, guided by the expertise of ITQAN graduates and NESMA QA/QC Managers. The collaboration between industry and trainees highlighted the practical applications of their studies, offering invaluable mentorship and real-world experience in welding and quality control.

Diploma 1 Trainees' Actual Tank Leak Testing, Repair and Inspection July 25, 2024

Diploma 1 trainees recently visited Shareej Kanoo Tank Services, gaining practical insights into quality assurance and the inspection, repair, and testing of tanks. They observed detailed processes involved in maintaining tank integrity, from initial inspections to final testing, and learned about advanced techniques and standards ensuring safety and compliance. The experience highlighted the critical role of thorough quality checks in the lifecycle of tank maintenance.

Industry Guest Lecturer

Workplace Safety and Career Preparation Essentials Seminar July 25, 2024

Diploma 1 trainees attended a key session on workplace safety and career preparation, led by Hussain AlKhalifah, safety supervisor at Gulf Consolidated Contractor. His expert insights into safety standards and career strategies provided the trainees with essential knowledge and practical advice for their future careers, enhancing their readiness for industry challenges. The session also included interactive discussions, allowing trainees to engage directly with AlKhalifah's real-world experiences.
